Career Objective

Final-year Computer Science student at JECRC University who enjoys turning ideas into simple, useful software. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and web development. Looking for a software development internship to learn from experienced engineers, contribute to meaningful products, and grow into a dependable developer.

Education

B.Tech in Computer Science and Engineering 2023 – 2027
JECRC University, Jaipur

Senior Secondary (Class XII) 2022
Shanti Dham Senior Secondary School, Atarra, Uttar Pradesh

Secondary (Class X) 2020
Shanti Dham Senior Secondary School, Atarra, Uttar Pradesh

Relevant Coursework: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Technical Skills

Programming Languages: C, C++, Python, Java, JavaScript, SQL

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, REST APIs

Web & Databases: HTML5, CSS3, Node.js, Express.js, MongoDB, Socket.IO

Tools: Git, GitHub, VS Code, Vercel, Streamlit

Projects

Rankraft – AI Resume Analyser (College Minor Project) 2025
Python, NLP, Streamlit/Flask, Web Application

- Built mainly for individuals, not companies: helps people discover their unique edge by reflecting on their strengths, interests, and growth areas.
- Uses basic NLP to analyse a user's resume and experiences, then highlights missing keywords, skill gaps, and areas for improvement.
- Provides clear, actionable feedback through a simple guided flow so everyday users can understand what makes them stand out.
- Designed with a friendly interface and visual insights to make self-discovery approachable and less overwhelming.

SameWave – Synced Listening Room 2025
Node.js, Express.js, Socket.IO, HTML, CSS, JavaScript

- Built a website where long-distance friends can join a private room and listen to music together in sync, no matter where they are.
- Implemented real-time room creation, join/leave events, and shared playback controls using Socket.IO for low-latency updates.
- Focused on a minimal, warm interface that makes it easy for friends to connect and share a listening experience.
- Handled dynamic room management and synchronised playback state across multiple users with a simple, reliable backend.

Work Experience

GDSC Member 2023 – 2024
Google Developer Student Clubs, JECRC University

- Helped plan and promote developer workshops, coding sessions, and peer-learning activities.
- Coordinated event logistics, outreach, and participant support with cross-branch student teams.

Achievements & Interests

- **GDSC Member (2023–2024):** Supported tech community events and beginner-friendly coding activities.
- **Coding Practice:** Regularly solve DSA problems on LeetCode and CodeChef.
- **E-Sports:** Valorant, competitive FPS, and team-based strategy games.
- **Music & Community:** Enjoy building playlists, helping friends with coding, and exploring scalable app ideas.
- **Languages:** English, Hindi
